WHAT ELSE CAN YOU EXPECT?

The Atlanta Constitution, the administration organ of Georgia, has the following word to say for the democratic congress:

What on earth is the matter with the democrats in congress? Was ever there another such display of tardiness or such an instance of vexatious delay as the unconcerned manner in which they are acting, in the face of the duty they owe to their party and their country? We have suffered enough from bungling leadership, and the 4th of March next will pay the penalty for having slept over our opportunities and having failed to meet the prime obligation exacted of the democratic administration—the reduction of the surplus. There are yet a few weeks left in which the party can, to a great extent, redeem itself. And yet we find the democrats of the house yawning and quibbling when the existence of the party is threatened in the possibility of no action being taken by this congress.

Does the Constitution ever remember when a democratic congress did its business in a different way than the congress which arouses the indignation of that paper? The democrats in congress always proceeded on the principle that they never had a duty to perform, or a country about which they cared a farthing. There never was anything else than bungling leadership in a democratic congress. And this fact constrained the New York Herald, another democratic paper, to say on Wednesday last, that the ignorant negroes of the south could not if they desired to do so, send a worse set of men to the national congress than the democratic party of the south has done.

But the north is not behind the south in this kind of business. The democrats of the north have done nothing else but quibble and jaw when they get into congress. It was once said by Wallace of Pennsylvania, and he was a good judge of his own party, that the entire history of the democratic party in congress was a "history of nothing but wrecks—wrecks in promises, wrecks in ambition, wrecks in pledges to duty." And this is true. The democratic party has had a great many opportunities that might have been improved with advantage to itself and the country, but it was blind to them and lost all. It was not to be expected that the present democratic congress would go back on its record.

A democratic friend of Mr. Wansmaker writes from Philadelphia to Harper's Weekly respecting the mugwump criticism of Mr. Wansmaker for having contributed money to the republican campaign fund. The mugwump story is that Mr. Wansmaker gave \$100,000 out of his own pocket and raised \$300,000 more among his friends, and they seek to convey the notion to the public that this money was used to bribe voters. The writer of the letter to Harper's Weekly says that he has the most unimpeachable authority for saying that Mr. Wansmaker's contribution was but \$10,000, and that all the money he was instrumental in raising for the campaign fund was \$80,000. Of course the principle is the same whether the amount be great or small. If it is wrong for a man to contribute to a campaign fund, it is wrong to give a small sum. But the peculiarity of this case is that President Cleveland contributed \$10,000 to the democratic campaign fund without receiving any extended rebuke from the mugwump papers and without in the least forfeiting their respect and admiration, while they keep a constant fire upon Mr. Wansmaker as if he were guilty of a corrupt and unworthy member of society.

Why don't Milwaukee hire a burglar to steal the amount and pay him a commission? I can be done and it is as easy as it is to levy a tax upon the unwilling taxpayer, and to force him to disgorge his share of the party necessary to entertain the G. A. R. or any other organization. That's the point of this business, and all the Gazette's rubbish about "rebellion," "treason," "bourbons" and "loyal people" is so much gush and flim-flam.

The above is the sort of twaddle that our democratic neighbors are dishing up just now for editorials. They seem to be impressed with the notion that the sentiments they entertain concerning "rebellion," "treason" and "loyalty," are popular, forgetting the fact that so long as the Grand Army of the Republic shall exist to remind the nation that "loyalty" was tested, by "treason" and "rebellion," just so long as least will the loyal people of the nation delight to do them homage. The retrospect of bourbon democracy never includes the war period except to allude to it as the bloody shirt era.

It is said that Mr. Cleveland has never entered but two houses in Washington except the residences of members of his cabinet, has never seen congress in session, and has not once entered either of the department buildings. Mr. Lincoln was the least formal of all the presidents, and frequently called at the state and war departments. A gentleman who was Secretary Seward's private secretary once told the writer that at a period during the war when our relations with Great Britain were very strained, President Lincoln frequently came to the secretary's room on the day when foreign dispatches were received.

IS HE "JACK THE RIPPER?"

CONFESSION OF A MURDEROUS FIEND.

A Priest Slain by a Madman—An Iowa Farmer "Buncoed" Out of \$5,000—Crimes.

LONDON, Feb. 12.—Another woman murder and mutilation has been discovered and the probable murderer arrested. The murder is similar in its details to those committed in Whitechapel. It is possible the man arrested is the Whitechapel fiend, "Jack the Ripper."

Following are the circumstances as far as made known by the police: A man and woman, names unknown, came to Dundee three weeks ago and took a small house. They said they came from London. Suspicion was directed against them from the beginning and they were watched by detectives. Recently the woman disappeared. The detective had not seen her leave the house and no traces could be found of her departure. Yesterday the man was arrested and the house searched, when a horrible discovery was made. A box in the basement was broken open by the police, and in it was found the body of the missing woman. The head had been cut off, the legs amputated, and the stomach ripped open.

The awful work bore all the appearance of having been done by the same hand that perpetrated the successive horrors in London.

There is reason to believe the man now in custody is that man. In this respect, however, the police authorities maintain great reticence.

The victim's husband, W. H. Bury, a resident of Whitechapel, London, under arrest on suspicion, has confessed the crime. Bury said that he left Whitechapel three weeks ago. He refuses to say why he left there, and acknowledges that he had no business requiring his attention at Dundee. He says that he and his wife drank heavily Saturday night before retiring and that he does not know how he got to bed. Upon awakening, he says, he found his wife lying upon the floor with a rope around her neck. Actuated by a sudden and mad impulse, for which he cannot account, he seized a knife and slashed the body. Upon reason returning he became alarmed and hastily crushed the body into the chest in which it was found, thinking to flee and make his escape. He found, however, that he could not leave his wife's remains and he finally resolved to inform the police.

The theory of the police officials is that Bury's wife knew of facts connecting him with the east end atrocities, and that she took him to Dundee in the hope of preventing a recurrence of the crimes.

Some excited gossip says the Germans have sent spies to the United States to look at the coast defenses. They should be offered a handsome reward for every one they find.

Sullivan, the ascending democratic treasurer of Indianapolis, had a great deal to say during the last campaign about "republican friends."

Judging from the number of different ways in which Prince Rudolf died, he must have had more lives than the traditional cat.

HE WAS WRONG.

And the Apology He Made to a Post-office Clerk.

"Can I speak to you for a moment?" he said softly, as he called the chief clerk in the postoffice to the window the other day.

"Certainly."

"Thanks. I didn't know but you were busy. Two months ago I came here and asked for a letter. Remember it?"

"I do not."

"Probably not, as you are always busy. I didn't get any. I gave it as my opinion that some of you had stolen it. Remember?"

"No."

"Probably not, but I spoke very emphatically. That was my opinion, and I went away feeling very much hurt. Remember?"

"No."

"Probably not, as I am of no great consequence. I now desire to ask your pardon. Will you forgive me?"

"Of course."

"Thanks. I believed you would. You see, I expected a letter from my aunt. None came. She couldn't write one. My wife was dead. See? Therefore, how could I get one? I take it back. I apologize. I was wrong. Shake."

"That's all right."

"Thanks. I'll never do it again. This is the kindest postoffice. I was wrong. Good-bye."

Peculiar Inscriptions.

We are grateful to a French writer who has with commendable industry collected many of the ancient mottoes traced upon quaint old houses and furniture. He says:

"In many parts of Germany and in Bavaria and Saxony may be read these beautiful words of welcome: 'God bless thy coming in and going out' or 'Let the blessing of God rest upon this house, and upon all who enter or leave it.'"

"Not unrequently a touch of humor crept in among the staid old burghers. Upon a candle manufactory was emblazoned: 'If O people, death in thy house be like the snuff of the candle of life, though known by the odor whether it be a tallow candle or a wax one.'"

"In the great dining-hall of the fortress of Marienburg, in western Prussia, is inscribed: 'He who wishes to eat here must be delicate in his eating, chaste in his conversation, and peaceful in his manner; above all, pious and loyal; if not, he will soon receive notice to quit.'"

A Burglar Photographed.

An enterprising burglar entered a gentleman's house at Waterford, Ireland, one night a couple of weeks ago, and, after purloining everything he could find, he prepared to remove a large photographic camera that was standing on a table. In some way he touched off a magnesium flash-light attachment that was part of the machine and fled precipitately when the thing flared up. The next day it was found that the camera had taken the photograph of the burglar. The negative was placed in the hands of the police and by its aid they quickly nabbed their man. It showed the burglar with a jimmy in one hand and a box containing jewelry under his arm, while he carried a sack over his shoulder with valuable pieces of plate, books, etc., and was gazing at the flash in open-mouthed amazement. This was the unimpeachable evidence of a mechanical eye witness, and the fellow was sent up for six months.

His Unobtrusive Piety.

"Spotcash, who is that man that went out of the store just now?"

"The Rev. Mr. Goodman. I thought you knew him, Oneprice. He is our pastor."

"Your pastor, Spotcash? Are you a member of a church?"

"Of course I am. I've been a member for twenty years."

"And I have been in partnership with you for fifteen years and never suspected you!"

Very Destructive of Life.

"Henry? Why, Henry died mo' a year ago wid a kyarbuncle."

"My! It's awful how many gits killed on dem kyars nowadays, wid de bilers bustin' an' agittin' scrunched 'tween de kyarbuncles."

Happiness.

The foundation of all happiness is health. A man with an imperfect digestion may be a millionaire, may be the husband of an angel and the father of half a dozen cherubs, and yet be miserable if he be troubled with dyspepsia, or any of the disorders arising from imperfect digestion or a sluggish liver. Dr. Pierce's Pleasant Purgative Pellets are the safest and surest remedy for these morbid conditions. Being purely vegetable, they are perfectly harmless.

THERE IS NO ONE ARTICLE IN THE LINE of medicines that gives so large a return for the money as a good purgative. The evening plaster, such as Carter's Small Weed Belladonna Backache Plasters.

THE WISCONSIN LEGISLATURE

Both Houses Flooded With Petitions Against the Taylor Railway Bill.

A Constitutional Amendment Proposed for the Retirement of Supreme Court Judges.

The Business of the Two Houses at the Monday Evening Session.

Special to the Gazette.

MADISON, Feb. 12h.—In the assembly this morning a large number of petitions were presented against the Taylor railway bill.

Among the bills introduced were: Amending the laws relating to the excise and sale of liquor.

Relating to the discharge of insolvent debtors who make voluntary assignments.

Amending revised statutes relating to circuit court jurors.

Among the bills passed were: Authorizing the city of LaCrosse to build and maintain a bridge across the Mississippi.

To change the time of holding court in the second judicial circuit.

A joint resolution amending the constitution by providing for the retirement and pay of supreme court justices was passed.

A resolution was introduced in the house against the importation of pauper labor of the old world and to the system of contract prison labor at home.

In the senate a number of petitions against the Taylor bill were presented.

Bills were introduced amending the laws relating to court commissioners. It authorized the appointment of additional commissioners in Winnebago and other counties.

LAST EVENING.

A brief session of the legislature was held last evening, barely a quorum being present in either house.

A batch of petitions against the Taylor railroad bill opened the proceedings in the assembly and only sufficient work was done to make the session appear business-like.

Mr. Durwin requested that the consideration of his resolution concerning divorce petitions be postponed on account of the slim attendance, and it was ordered.

The senate bill appropriating \$12,000 a year during the next two years to the fish commissioners, was concurred in, as also the bill authorizing registers of deeds to appoint deputies.

The bill repealing the law granting women the right to vote upon school matters was indefinitely postponed.

Bills were introduced as follows: By Mr. Elkhart—To enlarge the corporate limits of the city of Milwaukee, to include a section between Center street and Fond du Lac avenue.

By Mr. McCourt—To amend an act regulating the terms of court in the Eleventh judicial circuit and the time for holding them.

By Mr. Eaddock—To regulate the fees of physicians for making affidavits in pension cases, so that a physician shall not charge over \$2.

By Mr. Eaddock—To amend the charter of the city of Reedsburg.

By Mr. Hagestad—Amending the statute relating to partition fences.

By Mr. Baker—Relating to minors, prohibiting the allowing of minors to play on pool tables as well as billiard.

By Mr. Stephens—Pertaining to highways and bridges and a more efficient construction and improvement of the same.

By Mr. Caldwell—Relating to the organization of insurance corporations for church property.

By Mr. Wians—To authorize the building of sewers and drains in villages.

By Mr. Mohr—To prohibit the posting of improper show bills amending the law relating to fish and game.

By Mr. Ring—Relating to garnishment so that the garnishee shall not be liable for more than double the amount of the indebtedness in the affidavit; also relating to certificates of deposit so that every endorser shall be liable for the genuineness of the endorsement of the payee, also amending the laws concerning appeals to the supreme court so that no writ of error shall be necessary to bring up any judgement.

In the senate a lot of petitions against Taylor's bill came in. Messrs. Merrill and Kidd were put on the Fish and Game committee instead of Bedford and Persons.

Bills were introduced as follows: By Mr. Kidd—For a uniform insurance law.

By Mr. Merrill—To add to the national guard companies at Marinette, Fort Atkinson and Milwaukee.

By Mr. Fitch—To purchase land at Camp Douglas for the national guard at a total cost of not over \$5,000.

The assembly bill for a bridge at Racine was concurred in.

Bills were passed amending the laws in relation to village boards, making it the duty of county clerks to send copies of printed proceedings of the boards to the Historical society. Mr. Main's bill to print a red book was killed.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances."

E. G. LOVE, Ph.D.

"It is a scientific fact that the Royal Baking Powder is absolutely pure."

H. A. MOTT, Ph.D.

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance."

HENRY MONTROS, Ph.D., President of Stevens Institute of Technology.

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome."

S. DANA HAYES, State Assayer.

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE.—The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Spedder. A one pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Spedder only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

IMPRESSIONS OF FLORIDA.
Deer Hunting Among the Magnolias and Hammocks of the Sunny South.
A Midwinter Visit to the Land of Everlasting Summer and Flowers.
To the Editor.
"Twined in the land of the 'possum Where the peach and the orange do grow; Where violets and jessamine bloom; Where the 'climate' is just lovely you know." Where I roam every day—and for weeks—in spite of old Dewey's protests. Where I gaze at the cypress in the streets, And make in your kitchen bowl a s.

I have always loved the solitude of the deep dark woods and the velvet green of prairie and glen, and among the most pleasurable anticipations of a winter's outing in Florida, was the anticipated rolling around on the green grass, violet-scented turf overhung and fastened by the wild jessamine, or stalking the deer in the deep shadows of the live oak and magnolia.
"A wise man changeth his mind." I believe it.
I have changed mine. It was sudden, almost instantaneous—like a camp-meeting change of heart. No laborious, philosophical reasoning, no skeptical doubt and pro and con, it came about as easy and natural like. While quail shooting with Dewey and Riker one pleasant afternoon the balmy air heavy laden with the sweet perfume of orange and wild flowers—intoxicated like with the pleasurable surroundings, I wanted to lie down and enjoy myself, I felt as though I could be there all day. I noticed that my companions perched themselves on the peaked ends of a rotten stump, while I, in Indian fashion, reposed on the bosom of Mother Earth. I wanted to roll around and kick into the air. I was just going to say "This beats Dakota all hollow," when I—well, I received an impression, in fact, numerous impressions all at once. They were keen and sharp, clear cut and to the point. Presto change! I don't care to lie down any more! Riker, the villain, laughed; while Dewey looked solemn and sombre. I thought I saw moisture in his eyes, but he didn't laugh; he seemed to tremble all over with sympathy for my ignorance of the customs of the country. He said, "We never lie down on the ground in this country; when we want to rest we sit down on the small end of a sweet briar or perch on the prongs of a sycamore—anything that will keep us from coming in contact with the ground. The ground has jigger fleas, sand fleas, wood ticks and red-bugs and scorpions and tarantulas and lizards and rattlesnakes." "Hold on," said I, you are getting tired, rest yourself. I shall never lie down nor be about the violet-sprinkled green sward of Florida again. Oh! but there sand burrs were long and sharp. Riker grinned again and unhooking himself from the peaked end of the stump. He led the way to the hammock to shoot deer and turkey after the manner and according to the language of the "Crackers." The moon being south under, we were to sester and go north by the compass. One foot of the horn meant "sign," when we were all to come in to the footer for further orders. Two toots and a long toot, meant, "turn to the east," and so on and so forth, after due instructions as to the different signals and toots, and with Riker as captain, we deploy and strike for the hammock. Well I went into the hammock in the "deep cool shade of live oak and magnolia"—but I didn't go very fast, in fact I burned in due Florida style, vines, creepers and tangled web of all sorts, kinds and description was in front of me—all around me, they stuck to me closer than a friend; they made many and various impressions on my hands and face and ears (ears were too big anyway, so Brother Dewey said that evening as I took an inventory of what remained of my auditory apparatus) after several hours promenade in the "deep cool shade of live oak and magnolia" plus the above mentioned tropical ornaments, I struck a dense patch of saw palmettos. I had previously learned that the saw palmetto was the home of the big rattlesnake.

I am not afraid of "snakes," and as I was to go north by compass, this led me through the patch. I had worked my way perhaps half way through the dense stuff, prickly saw tooth abomination called saw palmettos, when the snake-gathering promontory of a Resorbak here in sight, he was in there looking for his dinner. With all my natural history lore I was uncertain as to how the rattlesnake exterminator might look upon a Wisconsin "Yank" in case of a shortage in his usual rations—and I didn't wait to find out. In a little time and I wasn't there, and my ordurary suit wasn't there, with me, that is a goodly portion of it was gone. Where was it, ask those palmettos? I must have left a clear trail there as I sauntered through the "deep dark woods in the shade of the live oak and magnolia." Presently I heard the toot "sign," and we went on. Dewey had Max and Gip on the leash: Riker showed the "sign" and we slipped the dogs. They soon got tongue, Max calling out, "how-o old-is-he?" Gip answered "twenty-o-o-ne-or-two. Twenty-o-o-ne-or-two." Riker reckoned that it was the same deer that he and Dix Scrivins had "shot" the past six years; we all "reckoned" it was twenty-one or two, it was pretty tough meat anyway and we didn't want it. It was now well on towards evening and we "reckoned" it was time to start for home. It was rather slow navigating until we struck an old road; this Dewey said would lead us direct to the cigar factory. Well, we walked and walked—didn't know we had gone so far from home. I looked at my compass, and—well, that was all wrong, it didn't find the right way at all. I wanted to go by the compass, but Dewey said, you can't depend on that compass, that compass was in the Angle-worm room all last summer, and when ever it gets anywhere in the vicinity of deer signs, is liable to be a little off. By this time we came out on the Brockville road, three miles east of Dewey's. My impression is that a few of those Florida deer should be secured by the state of Wisconsin. Just think of it, a deer that Frank Sherer, Natlie, Saint, Ruben, Valentine and all the mighty deer slayers of the Anglemorm Club could "shoot" for six or eight consecutive years, and then have "git" enough left

BASE BALL IN 1870.
One of the relics that Alderman Baker raked out from a dust-covered cigar box the other day, was an account book giving the doings of the Janesville Ball Club No. 1, for 1870. It is inferred that the salary limit was already in force as cash dividend when the club disbanded was twenty-five cents a member. Upon Secretary Warner fell the task of recording the club's receipts and expenditures, the expenditures being: "June 9, sixty-five cents toward ball July 10, fifty-five cents as balance on ball."
The disbandment of the club seems to have followed close upon this discouraging entry:
"June 29—Played with the Parish Base Ball club of Fond du Lac and were defeated by a score of 25 to 41."
The club was made up, according to the membership roll, as follows: "Frank Bump, — Hardy, — Corwin, Joe Doe, Theo, Hudson, John Pease, John Spence, Will Doe, B. Smith and H. A. Warner."

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely for the last fifteen years, and had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is fully restored and it seems to be improving all the time. I think there is nothing like Wyle's Cream Balm for catarrh.—Mrs. E. E. Grimes, 66 Valley street, Rendall, Perry county, Ohio.

IMPRESSONS OF FLORIDA.
Deer Hunting Among the Magnolias and Hammocks of the Sunny South.
A Midwinter Visit to the Land of Everlasting Summer and Flowers.
To the Editor.
"Twined in the land of the 'possum Where the peach and the orange do grow; Where violets and jessamine bloom; Where the 'climate' is just lovely you know." Where I roam every day—and for weeks—in spite of old Dewey's protests. Where I gaze at the cypress in the streets, And make in your kitchen bowl a s.

I have always loved the solitude of the deep dark woods and the velvet green of prairie and glen, and among the most pleasurable anticipations of a winter's outing in Florida, was the anticipated rolling around on the green grass, violet-scented turf overhung and fastened by the wild jessamine, or stalking the deer in the deep shadows of the live oak and magnolia.
"A wise man changeth his mind." I believe it.
I have changed mine. It was sudden, almost instantaneous—like a camp-meeting change of heart. No laborious, philosophical reasoning, no skeptical doubt and pro and con, it came about as easy and natural like.
